GARLAND VOLUNTEER FIRE DEPARTMENT

again is participating in the

WARREN GIVES 2023 PROJECT

Your contribution this year will assist us in upgrading our equipment. In our organization we have a young group of volunteers who are very dedicated to providing our service to the community. In providing this service we need to be able to give our volunteers the best equipment, especially for personal protection in firefighting gear. The necessary equipment to outfit a firefighter costs \$4500.00.

Our volunteers spend countless hours training, maintaining the fire equipment, apparatus, and the station along with doing various fund raisers that prepare them to protect and serve our community in their time of need during an emergency.

Your contributions in the past have been greatly appreciated

“ You all are part of our village”

We hope you will continue to support our community service.
